CEO UPDATE
Setting Policy Priorities

Increasingly, I am less interested in giving OR receiving material presents. Instead, I appreciate receiving and lean towards giving gifts of time and experiences, or of food and drink that are healthy, interesting or unexpected! I hope you might feel inspired by this little story and bend your own interpretation of gift-giving this time of year. Continue reading Soup of the Month Club

We are so excited to be providing the ND community with great continuing education opportunities as well as providing a network of doctors who can work together and learn from one another. 2013 also marked a great year for OncANP CEs. Both were a great success and we look forward to the 2014 versions! Full article
