

AANP LEADERS & STAFF CONTACTS

Jaclyn Chasse, ND – President

Dr. Jaclyn Chasse is Vice President of Scientific & Regulatory Affairs for Emerson Ecologics LLC, a leading supplier of professional-grade supplements and health products for integrative practitioners.

Prior to starting at Emerson in 2010, Dr. Chasse was a solo practitioner and grew her practice to a multidisciplinary clinic with more than 15 practitioners. She has maintained her clinical practice in Bedford, NH.

Dr. Chasse received her Doctorate of Naturopathic Medicine from Bastyr University. With advanced training in the areas of women's health, pediatrics and infertility (her practice specialties), including studying natural treatments for infertility at a world-

renowned natural fertility clinic in Sydney, Australia, she was recently awarded "Leading Physician in Integrative Medicine" by *New Hampshire* magazine. Dr. Chasse earned her Bachelor of Science degree in Biochemistry and Molecular Biology from the University of New Hampshire. Her passion for nutritional biochemistry led to her exploration of naturopathic medicine; this continues to influence her clinical decisions.

Dr. Chasse frequently lectures around the country on various integrative medicine topics, and she has authored several lay and professional articles and has had research published in research and clinical journals. She serves on the Boards of the American Herbal Products Association, the Endocrinology Association of Naturopathic Physicians and the American Association of Naturopathic Physicians, where she will take office as President in January 2016. She previously served as the President of the New Hampshire Association of Naturopathic Doctors and is currently on the Editorial Board for the *Natural Medicine Journal*.

In addition to her industry work, Dr. Chasse is a volunteer and founding board member for the Manchester Food CoOp. She also volunteers for Venture Unlimited, an outdoor program that fosters leadership among high school students. Dr. Chasse has two beautiful little boys, with whom she loves to spend time traveling, mountain biking, hiking, skiing, cooking and gardening.

Kasra Pournadeali, ND – Immediate Past President

Dr. Kasra Pournadeali (pour-na-deli) is director of the Northwest Center for Optimal Health. He has been a healthcare provider since 1992, and is a graduate of the University of Oklahoma Health Sciences Center and Bastyr University. He holds faculty appointments at Bastyr University and the University of Washington.

Dr. Pournadeali was the first naturopathic doctor to create a university-endorsed offsite clinic shift dedicated to integrating conventional and naturopathic approaches for patient care. As president of the Washington Association of Naturopathic Physicians, he led the effort to modernize the naturopathic scope of practice in Washington State in 2004 and again in 2005.

Dr. Pournadeali speaks and writes extensively, and has made more than 1,000 radio and television appearances locally and nationally. He has also published hundreds of articles explaining the benefits and limitations of naturopathic medicine. Listen to "Dr. P's" radio show, Healthy Living, Thursdays at 3:00 pm (PT) on 90.7 FM or at www.kser.org.
