ICNM – Where the best Natural Medicine world meets

March 2018 - For immediate release:

The **5th International Congress on Naturopathic Medicine ICNM 2018** will take place in London, 6-8 July, 2018, at the prestigious Millennium Gloucester Hotel**** in the heart of the city. This major Annual Conference, gathering over **600+ world experts**, is organized in collaboration with the British Naturopathic Association BNA and the GCRN. The Congress is dedicated to promoting excellence in natural medicine and will have a strong focus on the future of Natural Healthcare in the wake of increase consumer demand for access to Natural Medicine.

ICNM 2018 is the world's best annual Natural Medicine congress attended by hundreds of influential and inspiring healthcare experts who aim to collectively promote & improve patient care. Attendees have the opportunity to network with the finest Natural Medicine practitioners coming from more than 55 countries, and update their knowledge and skills learning from 30 internationally recognized Keynotes & Speakers along dozens of research presentations.

The congress program is officially accredited by OBNM to deliver continuing medical education credits.

*"We believe it is a good thing for Natural Medicine experts from around the world to connect & share ideas on the healthcare challenges from a different perspective. We are excited to propose an outstanding program that will play a pivotal role in helping to shape the future of the natural medicine profession. **Over 30 internationally renowned Natural Medicine Professors & Doctors** will present exceptional lectures to **600+ delegates from 55 countries**. The Congress is endorsed by more than **185 Universities & Institutions worldwide**" for the quality of the program and the event, says Anne Marie Narboni ND, Executive Congress Chair.*
