

The Run™ is here! The time is NOW for the largest Naturopathic licensing campaign in our history!

Please join the Michigan Association of Naturopathic Physicians as they welcome THE RUN FOR NATUROPATHIC LICENSURE (TheRun.org), North America's Premier Ultra Marathon benefitting Naturopathic Doctor Licensing in all 50 states. This event consists of a 50-mile course from Flint to Lansing, Michigan on October 1-3, 2018! Our mission is to raise awareness for the necessity of clean water and to attain licensure for our ND's - but this will not happen without your participation!

Despite the overwhelming demand for naturopathic medicine in Michigan, there is currently no medical licensing for naturopathic doctors which prevents NDs from offering their full scope of naturopathic medical care. The goal of the Michigan Association of Naturopathic Physicians (MANP) is to **ensure that the citizens of Michigan have the freedom to choose naturopathic doctors** for their healthcare needs. Through MANP's legislative efforts, Senate Bill 826 to license naturopathic doctors passed the Michigan Senate in May 2018 and is currently pending in the House of Representatives. But **Michigan needs your help to move the bill forward!**
