

 Wishing you a
HAPPY
THANKSGIVING
& Holiday Season

Wishing You & Yours the Best this Holiday Season

We wanted to take a moment to let you know how thankful we are to have members like you. We wish you and your loved ones nothing but the best this Thanksgiving and throughout the holiday season.

Giving Tuesday & Saving Compounded Medications Update

Now is the time to focus, grow, and join together as a profession. You don't have to wait until [Giving Tuesday](#) (11/27) to contribute. More than ever, as the [FDA violates the core principles in removing natural agents from compounding](#), we need to come together to [save compounded medications](#).

The FDA continues its review process of ingredients very commonly used by naturopathic doctors. In the last September meeting, the AANP was represented by Alan Dumoff, Paul Anderson, ND, and Virginia Osborne, ND. We had more success this time, with CoQ10, Creatine Monohydrate, and Pyridoxal 5 Phosphate (P5P) being approved, along with Alpha Lipoic Acid for oral use only. Denied was ALA for IV use and Quercetin. The FDA still has dozens of ingredients under review, and the AANP is also working on a Citizens Petition to challenge the FDA's process that has already lead to denials for common ingredients like Curcumin, Boswellia, Artemesia and many many more.

Please [donate now](#) to support our legal and advocacy efforts
Protecting Patient Access to Compounded Medications!

Can you [give today](#) or on Giving Tuesday in support of saving compounded medications? If you do not have the means to give, ask your colleague to become a member. The [membership value](#) far outweighs the cost to be a member.

Sincerely,

AANP Staff

SAVE COMPOUNDED MEDS

How can we help you?

We want to hear from you. If you have feedback or ideas, please contact us at communications@naturopathic.org. We remain steadfast and focused on our mission of enhancing human health and wellness by advancing the profession of naturopathic medicine. The AANP is committed to helping you grow your practice - and the profession - and we are working tirelessly toward our goal of securing licensure in all 50 states by 2025.
