

AANP 2019 BOARD NOMINATIONS

Why I Want to Serve on the AANP Board

“ My passion and life’s work is practicing medicine as a naturopathic doctor. I am grateful for the opportunity to sit with patients daily for the last 30 years and to guide them on their journeys to health.

Prior to becoming an ND I spent 4 years in the Navy as a medic then worked as a nurse. My experience in medicine has continued to evolve from this foundation and has led me to understand that excellent medical care includes utilizing the best medicine at the appropriate time. It acknowledges the autonomy & wisdom of each individual and educating them to make intelligent informed choices about their health care.

It is time to move away from polarity in our profession, and in the world, and to begin to listen and hear each other’s perspectives and needs in order for our medicine to thrive in this 21 st century.

I am committed to being an integral part of working within our profession to evolve our communication so that we can address the varying needs and perspectives in our community. My long term experience in many different aspects of the medicine profession gives me a unique and varied perspective for this position.

I am excited to be considered as an AANP Board member and would be honored to serve our profession in this capacity. ”

Margaret Beeson, ND
